🌐 Portfolio

Skills

Programming Languages: Java, JavaScript, SQL

Frontend Technologies: HTML5, CSS3, JavaScript, React

Backend Technologies: JDBC, Servlets, JSP, SpringBoot, Hibernate

Database: MySQL

Tools & Technologies: Eclipse IDE, Git, GitHub, Apache Tomcat, Maven

Projects

SUVAIO – Full Stack Food Delivery Web Application

Jan 2026 – Jul 2026

Technologies: Java, JDBC, Servlets, JSP, MySQL, HTML, CSS, JavaScript

- Developed a full-stack food delivery application using Java, Servlets, JSP, JDBC, and MySQL.
- Implemented authentication, menu management, cart, checkout, order tracking, and role-based dashboards using MVC architecture.
- Added nutrition tracking, analytics, and order management for customers, restaurants, and administrators.

KultStyle – E-Commerce Web Application

Feb 2026 – May 2026

Technologies: Java, JDBC, Servlets, JSP, MySQL, HTML, CSS, JavaScript

- Developed a full-stack fashion E-Commerce application using Java, JSP, Servlets, JDBC, and MySQL.
- Implemented user authentication, product browsing, wishlist, shopping cart, checkout, and order management.
- Integrated MySQL database with JDBC and followed MVC architecture for maintainable application structure.

Smart Irrigation using IoT

Jul 2024 – Dec 2024

Technologies: NodeMCU ESP8266, Java, Blynk

- Developed an IoT-based automated irrigation system using soil moisture sensors.
- Reduced water wastage through automated irrigation based on real-time soil conditions.
- Enabled remote monitoring and pump control using Blynk mobile application.

Skin Cancer Diagnosis System

Jun 2025 – Dec 2025

Technologies: Python, TensorFlow, Flask

- Developed a CNN-based skin cancer detection model using TensorFlow and Keras.
- Achieved 92% classification accuracy using ISIC dermoscopic image dataset.
- Built a Flask web application for image upload and automated prediction.

Experience

Software Development Intern

Tap Academy — Jan 2026 – July 2026

- Gained hands-on experience in Java, HTML, CSS, JavaScript, and SQL through full stack development training.
- Developed and tested web applications using Java, JDBC, Servlets, and MySQL.
- Improved debugging and problem-solving skills through real-world project implementation.

Achievements

- Presented a research paper on **Skin Cancer Diagnosis System using AI** at an ISTE-organized college competition.

Education

B.E in Information Science

2022 – 2026

HKBK College of Engineering, Bangalore

CGPA: 8.68
